

*A Birthday Pictorial*  
*January 12 2022*  
*Another year older ticking into another decade*

Well, what does one do on a birthday but walk! Just like last year! Just like Christmas Day too! It mattered not that the groin is under immense strain and the walk was short but walk we did. We went to Darkes Forest and walked the 10H Fire Trail in Dharawal National Park until increasing showers reduced the chances for good images!

*Corunastylis fimbriata*

Illegal access

*Petrophile sessilis*

*Scaevola ramosissima*

Xyris or beetle or pornographic image: whichever takes your fancy

Later on, at home, one plump one rolled off my wrist, satiated!

*Cryptostylis subulata*

And so ends another birthday walk!

*Brian Everingham*
